European Defence Challenge 2021

Bring your assets together to boost innovation!

With the support of the
Erasmus+ Programme
of the European Union

The purpose of the challenge is
to write a document answering the following question:

Which technologies and technology bricks are particularly relevant for Europe's sovereignty in defence and security?

The proposal must present a new usage or suggest improvements on a new technology. Without being exhaustive, this can deal with artificial intelligence, robotics, autonomous vehicles, chip technologies, batteries, signal and image processing, control and cybersecurity.

Please defend your proposal by including socio-economic, political and/or environmental aspects as much as possible.

With the support of the
Erasmus+ Programme
of the European Union

Who can participate

- The European Defence Challenge is a competition for all European undergraduate and graduate students
- Participants are encouraged to work in pairs

How to participate

- Sign up on the website www.assets-plus.eu/challenge
- Download the template

Phase 1: One-page proposal

- Answer the question by proposing your ideas
- A jury of some of the key players in the European defence industry will review the proposals. The best ones move to phase 2

Phase 2: 10-page proposal

- Develop your ideas
- Submit a 10-page proposal by adding details, figures, graphics to your initial proposal
